## PRESIDENT WHEELER OF KY. MIDLAND

Makes the Earlington Boosters Club a Visit—Thinks Well of Proposition

## OF EXTENDING RAIL- ROAD TO DAWSON

President F. F. Wheeler, of the Kentucky Midland, was here Friday and in company with the officials of the Booster's Club went over a portion of the route the Midland would probably take in coming to Earlington. Mr. Wheeler says the route from Central City to Dawson would be possibly two miles shorter than the present line of the I. C. and would run through much more populous country. This would put the Midland in touch with the largest coal fields in the state and would give Earlington an outlet to the coal markets on the I. C. Should this line be completed it would stimulate the coal and coke industry in this territory to a considerable extent and other lines of business would be benefitted correspondingly. It is stated that when Mr. Wheeler returns from Chicago in a few weeks arrangements will be made to survey the route from Earles to Dawson via Earlington.

& Co., Pleasant View Greenhouse and others.

All work must be done by the pupils who are enrolled in the schools and must be vouches for by the teacher by her signature on the work.

Exhibits should be arranged by 9:30 o'clock November 12th.

### For Mrs. Daves

Mrs. C. B. Johnson entertained most delightfully on last Friday evening in honor of Mrs. W. E. Daves, who is leaving for Evansville. Those present were Mesdames Daves, Southworth and Kline, Mr. and Mrs. Rule and D. Ross. Dr. Johnson made the highest score at Auction. Before leaving the guests were invited into the dining room where a beautifully appointed lunch was served.

## Bacon Fry at Loch Mary

The young folks of the town  
had a bacon fry Friday night on  
the banks of Loch Mary.

A big bonfire was built and the  
chaperones prepared a very ap-  
petizing lunch. The evening was  
spent in telling fortunes and  
playing games. Those present  
were: Mr. and Mrs. Elgie Sisk  
Mr. and Mrs. Kirby O'Bannon.  
Mr. and Mrs. Charles Trahern,  
Misses Mable Browning, Geneva  
Hoffaker, Francis McElpatrick,

### How to Prevent Croup

It may be a surprise to you to  
learn that in many cases croup can  
be prevented. Mrs. H. M. Johns,  
Elida, Ohio, relates her experience  
as follows: "My little boy is sub-  
ject to croup. During the past winter  
I kept a bottle of Chamberlain's  
Cough Remedy in the house, and  
when he began having that cruddy  
cough I would give him one or two  
doses of it and it would break the  
attack. I like it better for children  
than any other cough medicine be-  
cause children take it willingly, and  
it is safe and reliable." Obtainable  
everywhere.

much sense.  
In fact I've been told  
that I'm dense.  
But my only  
employment  
is finding  
enjoyment—  
My power in  
that is  
immense.

## Will Move To Earlington

Mr. C. W. Cox, of Madisonville  
has accepted a position with the  
Kentucky Central Life Insurance  
Company and will move his family  
to this place as soon as he can  
secure a desirable house. Mr. E.  
S. Blanks and family of St. Charles,  
have rented the Ernest Newton  
property and will move to  
Earlington in a few days. Mr.  
Blanks has accepted a position  
in the mechanical department of  
the St. Bernard Mining Co.,  
Finis Blanks and wife, of St.  
Charles, will also make their  
home in this city. The people of  
Earlington extend all three families  
a hearty welcome.

## TIRED OUT.

There's many a farmer's wife sits on the  
porch in the growing shadows of a summer  
evening, knowing to the full what it is  
to feel tired out; as if there was not  
another ounce of effort left in her. But  
she knows how  
sound her slumber will be and  
how refreshed the morning will  
find her. That's the tiredness of a healthy  
woman. But it's another thing for the  
sick woman to feel tired out. Rest only seems  
to increase her suffering. Just as in profound  
silence a discord jars the ear  
more forcibly, so now that she has stopped  
moving about, this tired woman feels more acutely the  
aching back and throbbing nerves.

Sick women, thousands of them right  
here in Kentucky, have been made well  
by the use of Dr. Pierce's Favorite  
Prescription. It establishes regularity, heals  
inflammation and ulceration.

A strong, healthy woman instead of a  
tired and ailing one! Sounds like a  
miracle, doesn't it? But it isn't. It's  
only the ordinary, everyday work of  
Dr. Pierce's Favorite Prescription—just  
the work that it was made for.

It's a woman's medicine, carefully  
compounded for her by an experienced  
physician, and adapted to her delicate  
organism. It makes weak women strong,  
suffering women well.

## PRISON FARM SHOWS PROFIT

Experiment of Board of Prison  
Commissioners Solves  
Problem

## MEANS SAVING TO TAXPAYERS

Interesting Statement Issued by Warden A. J. G. Wells, of the Kentucky State Reformatory—State Farm Shows Profit of \$4,826.81 During Fourteen Months.

Frankfort, Ky.—(Special)—The ex-  
periment of employing the prisoners of  
the state on the State Farm seems to  
be a decided success. After a thor-  
ough trial of the plan of the Board of  
Prison Commissioners and Warden  
Wells, there is a net profit to the state  
of \$4,826.81 in fourteen months.

At the request of R. C. Terrell, Com-  
missioner of Roads, A. J. G. Wells, Warden  
of the Kentucky State Reformatory, has prepared a statement cover-  
ing the period the plan has been in op-  
eration. Warden Wells covers his two  
years' experience with a limited num-  
ber of prisoners on the State Farm.  
Mr. Wells said in part:

"The Legislature of 1914 authorized  
by law the lease of a farm, with an  
option of purchase at the end of the  
lease. In accordance therewith, the  
Board of Prison Commissioners, on  
recommendation of myself, as Warden,  
and with the approval of the Sinking  
Fund Commissioners, of which the  
Governor is a member, leased the Mas-  
tin farm, consisting of 462 acres, about  
1½ miles from the prison, and in the  
bend of the Kentucky river, just op-  
posite the new capitol, for an annual  
rental of \$3,000 per year. The Legis-  
lature adjourned on March 19, 1914,  
negotiations were carried on with sev-  
eral landowners and a contract con-  
cluded, and prisoners were put to work  
on the farm April 10, 1914. This, of  
course, was too late to get the best  
results the first year. This late  
start, which was unavoidable, and the  
severe drought which followed, made it  
a trying test for the first year, but in  
spite of both of these serious handi-  
caps, even this year made a most sat-  
isfactory showing.

"A summary of expenditures and re-  
ceipts of the farm, from April, 1914, to  
July 1, 1915, shows a net gain on July  
1, 1915, of \$4,826.81, after charging the  
farm with all labor at the same av-  
erage price paid inside the prison.  
Moreover, this net gain does not take  
into account many crops that had not  
developed sufficiently for accurate in-  
voice on said date. These crops are as  
follows: 10 acres of tobacco, 25  
acres of late Irish potatoes, 1 acre of  
sweet potatoes, 8 acres sugar cane, 7  
acres turnips, 2½ acres cabbage, 15  
acres beans, 5 acres greens, ½ acre  
cucumbers, 1 acre carrots, 6 acres  
melons.

"The season since July 1 has con-  
tinued good, and the products above  
named have added very materially to  
the balance above stated. We have,  
since July 1, put up for use in the  
prison 12,000 gallon cans of beans, to-  
matoes, corn and apples. All the cattle  
and hogs are slaughtered at the farm,  
and sold to the prison at less price  
than the packing houses furnish other  
state institutions similarly situated.  
The meats, vegetables and other prod-  
ucts are served fresh, and are alto-  
gether more wholesome and palatable  
than from the packers' cold storage.  
The better health of the prison popu-  
lation resulting is within itself a large  
asset.

"The farm, on account of its prox-  
imity to the prison and its splendid  
isolation, is ideally located. There are  
on the farm inexhaustible ledges of  
limestone, and within a few feet of a  
railroad and the Kentucky river. A  
rock crusher of sufficient capacity at  
this point, operated by prison labor,  
could easily supply a large demand for  
road material throughout the state.

"The railroad and river facilities for  
shipment should insure reasonable  
transportation rates. In my opinion,  
there is no place in the market which  
furnishes so many attractive features  
as this one for farming on a small  
scale, and for the production and trans-  
portation of road material, by the use of  
prison labor.

"It might be interesting in this con-  
nection to state that out of 179 pris-  
oners sent to the farm at different  
times, only 4 have escaped, and 2 of  
them returned. These prisoners re-  
main at the farm at night, and, while  
they are under the direction and guard  
of Capt. J. P. Schenck, they have,  
necessarily, many opportunities to es-  
cape, if they were so inclined. I do  
not mean by this statement, however,  
to indicate that prisoners, indiscrim-  
inately, can be trusted on the outside.  
We have attempted, as far as surround-  
ing circumstances would permit, to ex-  
ercise good judgment in their selec-  
tion for this work. My estimate is  
that possibly 25 per cent of the prison  
population could be worked on the out-  
side in farming and the production of  
road material, with reasonable safety,  
under proper, careful and humane di-  
rection. A great deal will depend  
upon the plan adopted and selection of  
the agent, or agents, who shall exe-  
cute the plan.

"If such a venture is to be made by  
the state, a bill should be carefully  
drawn, after mature consultation with  
those who have had actual and suc-  
cessful experience in the handling of  
prisoners, and before the meeting of  
the Legislature. No half-baked, hasti-  
ly-considered legislation should be  
passed in this connection."

## EAT WITHOUT FEAR OF INDIGESTION OR SOUR, ACID STOMACH

Instant relief! "Pape's Dia-  
pepsin" ends your stom-  
ach trouble forever

Wonder what upset your stom-  
ach—which portion of the food  
did the damage—do you? Well,  
don't bother. If your stomach is  
in a revolt; if sour, gassy and  
upset, and what you just ate has  
fermented into stubborn lumps;  
head dizzy and aches; belch gas-  
es and acids and eructate undiges-  
ted food, breath foul, tongue  
coated—just take a little Pape's  
Diapepsin and in five minutes  
you wonder what became of the  
indigestion and distress.

Millions of men and women to-  
day know that it is needless to  
have a bad stomach. A little  
Diapepsin occasionally keeps this  
delicate organ resulted and they  
eat their favorite foods without  
fear.

If your stomach doesn't take  
care of your liberal limit with-  
out rebellion; if your food is a  
damage instead of a help, re-  
member the quickest, surest,  
most harmless relief is Pape's  
Diapepsin which costs only fifty  
cents for a large case at drug  
stores. It's truly wonderful—it  
digests food and sets things  
straight, so gently and easily  
that it is really astonishing.  
Please, for your sake, don't go on  
and on with a weak, disordered  
stomach; it's so unnecessary.

Beware of Cheap Substitute

**Paxtine**  
A Soluble Antiseptic Powder to be dissolved in water as needed  
For Douches

In the local treatment of woman's ills, such as leucorrhoea and inflammation, hot douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healing properties.

For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have used Paxtine say it is "worth its weight in gold." At druggists, \$1.00 large box or by mail. Sample free. The Paxton Toilet Co., Boston, Mass.

Any style and price. Best quality on the market—none better
